POSTSCRIPT

Hi all! This is the author. This time, my initial concept was "slightly erotic harem love comedy, with tame humor, and as embarrassing as possible!" and so for me, doing this new genre makes me feel a bit stupid sometimes (haha), but I've still had a lot of fun drawing it despite my lack of confidence.

Well, putting that aside, I needed a good reason to force the slight eroticism, so I came up with the idea of there being daughters, but that's made things a bit complicated for me, so I'm really kicking myself for that (haha). But seriously, writing this has made me want a daughter of my own. Please try to read this series thinking as if you will be a parent someday. Try not looking at it for the perverted stuff.

It looks like
it's gonna
be a comedy
but... a
little
erotic!
